Nizamabad , Bheemgal

EDUCATION

Malla Reddy College of Engineering and Technology

2022-2026

B.Tech in Information Technology

CGPA : 7.73

SKILLS

Python, Java, SQL, MS Excel, HTML , CSS, JavaScript, PHP, DSA using Python, Auto CAD, git, github

Python: NumPy, Pandas, Matplotlib, Seaborn

PROJECTS

Food Waste Management System using Java

- The basic concept of this project, Food Waste Management System is to collect the excess or leftover food from donors such as hotels, restaurants, marriage halls etc and distribute to the needy people.

Tic Tac Toe using JavaScript

- Developed an interactive Tic Tac Toe game using JavaScript, HTML, and CSS to enhance user experience and demonstrate proficiency in front-end development. The project involved designing a dynamic user interface, implementing game logic, and ensuring cross-browser compatibility.

Amazon clone using HTML, CSS

- Built a fully responsive Amazon clone with HTML and CSS, replicating the structure and design of the Amazon shopping experience. Focused on creating a clean, modern layout with attention to detail in product presentation and navigation elements.

ACHIEVEMENTS

- Certificate of participation on Great AppSec hackathon 2024
- Introduction to Generative AI certification from Google cloud Skill Boost
- Cambridge English Empower certification
- Python for Data Science, AI & Development certification from IBM
